INDEX TO VOL. I (A).

AUTHORS' INDEX.

Ananthakrishnan, R. .. Photoelectric photometry of light scattering in fluids, 201.

Asundi, R. K. .. The band systems and structure of CaCl, 830.

Asundi, R. K., Rao, C. M. Bhasker, and Samuel, R. On the absorption spectra of some organo-metallic compounds, 542.

Banerji, S. K. .. Theory of Microseisms, 727.

Bhagavantam, S., and Rao, A. Veerabhadra .. Distribution of intensity in the rotational Raman Spectra of gases, 419.

Bhatt, N. B. .. High frequency spectrum of mercury vapour, 891.

Bose, Akshayananda .. The weiss constant of paramagnetic ions in the S-state.—Part I. Aqueous solutions of manganous salts, 605.

The weiss constant of paramagnetic ions in the S-state.—Part II. Aqueous solutions of ferric salts, 754.

Bose, N. K. .. *See* Vaidhianathan and others.

Burjorjee, H. R., Kamakshi, Menon, B. K., and Peacock, D. H. .. Rotatory power and chemical constitution.—Part I. The preparation and resolution of α-Benzyl-*n*-caproic acid and some derivatives, 407.

Burjorjee, H. R., Menon, B. K., and Peacock, D. H. .. Rotatory power and chemical constitution.—Part II. The preparation and resolution of α - Benzyl-β-*p*-brom-phenyl propionic acid and similar compounds, 412.

Chakravarti, S. P. .. On the voltage amplification by electric wave-filters terminated in negative resistances, 224.

Chowla, I. .. The representation of a positive integer as a sum of squares of primes, 451.

Some problems of Waring's type, I, II, 694, 780.

Chowla, S. .. Heilbronn's class-number theorem, I, II, 74, 145.

An extension of Heilbronn's class-number theorem, 143.

The greatest prime factor of $x^2 - 1$, 269.

The greatest prime factor of $x^2 + 1$, 271.

The class-number of binary quadratic forms, 387.

On sums of powers, I, II, 528, 590.

Some infinite series, 531.

The lattice points in a hypersphere, 562.

Note on hypothesis K of Hardy and Littlewood, 592.

A theorem on sums of powers with applications to the additive theory of numbers, I, II, III, 698, 701, 930.

On a certain arithmetical function, 772.

Chowla, S., and Sastry, S.. On sums of powers, 534.

Deshpande, P. Y. .. *See* Paranjpe and Deshpande.

Ganesan, A. S. .. Raman effect in selenic acid and some selenates, 156.

Gogte, G. R. ..	Chemistry of β-Aryl glutaconic acids.—Part I., 48.
Guha, A. C. ..	*See* Krishnan and Guha.
Gupta, Hansraj ..	On the p-Potency of G (n, r), 620. Decompositions into squares of primes, 789.
Iyer, M. P. Venkatarama .	Potentiometric studies in the formation and stability of colloidal solutions.—Part I. Ferric oxide sols., 372.
Jadhav, G. V., and Rangwala, Y. I.	Bromination of substances containing two aromatic nuclei.—Part II. Bromination of phenyl and cresyl esters of m- and p-nitro-benzoic acids, 616.
Jagannathan, S. ..	On the scattering of light by liquid surfaces, 115.
Jatkar, S. K. K. ..	*See* Mehta and Jatkar.
Kamakshi ..	*See* Burjorjee and others.
Karim, S. Mujtaba, and Samuel, R. ..	Absorption spectra of the sulphite and sulphate ions, 398.
Khan, Azhar Ali, Kurien, P. N., and Pandya, K. C.	The condensation of aldehydes with malonic acid in the presence of organic bases.—Part II. The condensation of salicylaldehyde, 440.
Kosambi, D. D. ..	Homogeneous metrics, 952.
Krishnan, K. S., and Guha, A. C.	The absorption spectra of nitrates and nitrites in relation to their photodissociation, 242.
Krishnan, R. S. ..	On the Plotnikow effect or longitudinal light scattering in liquids, 44. The scattering of light by particles suspended in a medium of higher refractive index, 147. Optical evidence for molecular clustering in fluids, 211. On the depolarisation of Tyndall scattering in colloids, 717. The reciprocity theorem in colloid optics, 782. Molecular clustering in binary liquid mixtures, 915.
Kurien, P. N. ..	*See* Khan and others.
Kurien, P. N., Peter, C. J., and Pandya, K. C	The condensation of aldehydes with malonic acid in the presence of organic bases.—Part III. The condensation of salicylaldehyde with ethyl malonate, 775.
Lessheim, H., and Samuel, R. ..	On the pair bond theory of valency, 623.
Limaye, Dattatraya Balkrishna	Synthesis of the dimethyl-ether of γ-resorcylic aldehyde, 163.
Luthra, Hansraj ..	*See* Vaidhianathan and others.
Malurkar, S. L. ..	Effect of radiation on the transmission of temperature discontinuity, 454.
Mehta, D. N., and Jatkar, S. K. K.	A valve potentiometer, 390.
Meldrum, A. N., and Parikh, P. H.	Synthesis of phenylacetic acids from gallic acid and its methyl ethers, 431. Synthesis of m-hemipinic acid, 437.

Meldrum, A. N., and Vaidyanathan, K. S. — Synthesis of substances related to cochinillic and carminic acids, 510.

Menon, B. K. .. — *See* Burjorjee and others.
See Burjorjee and others.

Murty, T. Suryanarayana — Note on Dirichlet's L-functions, 707.

Nagabhushanam, K. .. — On the form $\sum_{r=1}^{n} p_r\, dq^r$—H$dt$, 555.

Narasimhiah, G. .. — The refractivity of liquid mixtures, 34.

Narayanaswamy, B. N. .. — *See* Rau and Narayanaswamy.
See Rau and Narayanaswamy.
See Rau and Narayanaswamy.

Nath, N. S. Nagendra .. — The normal vibrations of molecules having octahedral symmetry, 250.
The dynamical theory of the diamond lattice.—I, 333
The dynamical theory of the diamond lattice.—Part II, The elastic constants of diamond, 841.

Neelakantam, K., Rao, R. H. Ramachandra, and Seshadri, T. R. — Pigments of cotton flowers.—Part I. Cambodia (*Gossypium hirsutum*), 887.

Oblάth, Richard .. — Congruences with binomial coefficients, 383.

Pandya, K. C. .. — *See* Khan and others.
See Kurien and others.

Paranjpe, G. R., and Deshpande, P. Y. — Dielectric properties of some vegetable oils, 880.

Parikh, P. H. .. — *See* Meldrum and Parikh.
See Meldrum and Parikh.

Peacock, D. H. .. — *See* Burjorjee and others.
See Burjorjee and others.

Peter, C. J. .. — *See* Kurien and others.

Ramamurti, B. .. — Linear complexes related to a rational norm curve, 457.

Ramanadham, M. .. — Anisotropy of the optical polarisation field in liquids, 281.
The principal optical polarisabilities of the naphthalene molecule, 425.

Ramanathan, K. R., and Ramdas, L. A. — The transparency of the atmosphere in the Ultra-violet and a possible means of extending the solar spectrum in the regions 2200–2000Å, 308.
Derivation of Ångstrom's formula for atmospheric radiation and some general considerations regarding nocturnal cooling of air-layers near the ground, 822.

Raman, C. V. .. — The origin of the colours in the plumage of birds, 1.
The Indian musical drums, 179.
On iridescent shells.—Part I. Introductory, 567.
On iridescent shells.—Part II. Colours of laminar diffraction, 574.
On iridescent shells.—Part III. Body-colours and diffusion-haloes, 859.

Raman, P. K. .. Heat radiation from the clear atmosphere at night, 815.

Ramdas, L. A. .. *See* Ramanathan and Ramdas.
See Ramanathan and Ramdas.

Rangaswami, K. .. The theory of normals to a quadric in hyperspace, 931.

Rangwala, Y. I. .. *See* Jadhav and Rangwala.

Rao, A. V. .. Rotational Raman Effect in liquids, 274.
See Bhagavantam and Rao.

Rao, B. Sanjiva, and Subramanian, K. S. The occurrence of Furan derivatives in volatile oils, 189.

Rao, B. S. Madhava .. Elliptic function formulæ and plane cubic curves, 363.

Rao, B. V. Raghavendra .. Some multiplets in the Ag III spectrum, 28.
Examination of molecularly scattered light with a Fabry-Perot etalon.—Part I. Liquid benzene, 261.
Examination of molecularly scattered light with a Fabry-Perot etalon.—Part II. Liquids: Toluene and carbon tetrachloride, 473.
The Doppler Effect in light scattered by liquids.—Part I. Variation with temperature, 765.

Rao, C. M. Bhasker .. *See* Asundi and others.

Rao, R. H. Ramachandra . *See* Neelakantam and others.

Rao, S. Ramachandra .. Magnetism of tin, 123.

Rao, S. Ramachandra, and Varadachari, P. S. Diamagnetism of organic liquid mixtures at different temperatures, 77.

Rau, M. A. Govinda .. Theory of the solvent effect in dipole moment measurements, 498.

Rau, M. A. Govinda, and Narayanaswamy, B. N. The effect of the solvent in dipole moment measurements: the moment of ethylene bromide, 14.
The dipole moment of chloro-methyl ether, 217.
Effect of solvent in dipole moment measurements: polarisation and moment of nitrobenzene, 489.

Rudra, J. J. .. A new type of phase advancer, 98.
Basic theory of the general Expedor phase advancer, 288.

Samuel, R. .. *See* Karim and Samuel.
See Asundi and others.
See Lessheim and Samuel.

Samuel, R., and Zaki-ud-Din, Mohd. .. Note on the absorption spectrum of CaI, 723.

Sastry, S. .. *See* Chowla and Sastry.
On sums of powers, 928.

Seshadri, T. R. .. *See* Neelakantam and others.

Seshan, P. K. .. Chemical studies on coal, 536.

Seth, J. B. .. A regularity observed in the second spark spectrum of iodine, 593.

Shastri, N. A. .. Some properties of the *k*-function with non-integral index, 768.

Sibaiya, L. .. *See* Venkatesachar and Sibaiya.
Hyperfine structure of the arc lines of molybdenum and copper, 321.

Srinivasiengar, C. N. .. Singular solutions of simultaneous ordinary differential equations, 568.

Subbaramaiya, D. S. .. Dielectric constants of liquids and liquid mixtures, 355.
On the depolarisation of Tyndall scattering in colloids, 709.

Subbaraya, T. S. .. The spectrum of trebly ionised mercury, 39.
On the Band systems of mercury, 166.
On the analysis of the Band spectrum of cadmium, 484.
Analysis of the Band spectrum of zinc, 663.

Subramanian, K. S. .. *See* Rao and others.

Swamy, S. Rama .. The scattering of light by thin metallic films, 347.
X-ray analysis of the structure of iridescent shells, 871.

Vaidhianathan, V. I., Luthra, Hansraj, and Bose, N. K. — A hydrodynamical investigation of the sub-soil flow from canal beds by means of models, 325.

Vaidyanathan, K. S. .. *See* Meldrum and Vaidyanathan.

Vaidyanathaswamy, R. .. A fundamental property of Hart systems of circles, 67.
The apolar invariant of bilinear forms, 315.

Varadachari, P. S. .. *See* Rao and Varadachari.

Venkatachaliengar, K. .. On the validity of the Raman-Banerjee analysis of the pianoforte hammer problem, 60.
The method of finding the class-number and the structure of the class group of any algebraic field, 446.

Venkatesachar, B., and Sibaiya, L. — Hyperfine structure of some Hg II lines, 8.
Platinum isotopes and their nuclear spin, 955.

Venkateswaran, C. S. .. Raman spectrum of sulphur in the solid and liquid states, 120.
The Raman spectra of some metallic halides, 850.

Wheeler, T. S. .. On the theory of liquids, II, III, 105, 795.
The electrostatic potential of a crystal of the cuprite type, 905.

Zaki-ud-din, Mohd. .. *See* Samuel and Zaki-ud-din.

TITLE INDEX. (A).

Aldehydes, condensation, with malonic acid in the presence of organic bases, II, III, (Khan and others), 440, 775.

Arithmetical function, certain (Chowla), 772.

Band systems and structure of calcium chloride (Asundi), 830.

Band systems of mercury (Subbaraya), 166.

Bilinear forms, apolar invariant (Vaidyanathaswamy), 315.

Binary quadratic forms, the class-number, (Chowla), 387.

Binomial coefficients, congruences with (Oblath), 383.

Birds, plumage, origin of colours (Raman), 1.

Bromination of substances containing two aromatic nuclei, II (Jadhav and Rangwala), 616.

Carminic and cochinillic acids, synthesis of substances related (Meldrum and Vaidyanathan), 510.

Circles, Hart systems, a fundamental property (Vaidyanathaswamy), 67.

Class-number, method of finding, and the structure of the class group of any algebraic field (Venkatachaliengar), 446.

Coal, chemical studies (Seshan), 536.

Cochinillic and carminic acids, synthesis of substances related (Meldrum and Vaidyanathan), 510.

Colloidal solutions, potentiometric studies in the formation and stability, I (Iyer), 372.

Colloid optics, reciprocity theorem (Krishnan), 782.

Colloids, Tyndall scattering, depolarisation (Subbaramaiya), 709.

Colloids, Tyndall scattering, depolarisation (Krishnan), 717.

Cotton flowers, pigments (Neelakantam and others), 887.

Diamagnetism of organic liquid mixtures at different temperatures (Rao and Varadachari), 77.

Diamond lattice, dynamical theory, I, II (Nath), 333, 841.

Dielectric constants of liquids and liquid mixtures (Subbaramaiya), 355.

Dielectric properties of some vegetable oils (Paranjpe and Deshpande), 880.

Differential equations, simultaneous, ordinary, singular solutions (Srinivasiengar), 668.

Dipole moment measurements, effect of the solvent (Rau and Narayanaswamy), 14, 489.

Dipole moment measurements, theory of the solvent effect (Rau), 498.

Dipole moment of chloro-methyl ether (Rau and Narayanaswamy), 217.

Dirichlet's L-functions (Murty), 707.

Drums, musical, Indian (Raman), 179.

Electrostatic potential of a crystal of the cuprite type (Wheeler), 905.

Elliptic function formulæ and plane cubic curves (Rao), 363.

γ-resorcylic aldehyde, dimethylether, synthesis (Limaye), 163.

Glutaconic acids, β-aryl, chemistry, I (Gogte), 48.

G (n, r), p-potency (Gupta), 620.
Hardy and Littlewood, hypothesis K (Chowla), 592.
Heilbronn's class-number theorem, I, II (Chowla), 74, 145.
Heilbronn's class-number theorem, extension (Chowla), 143.
Hyperfine structure of some Hg II lines (Venkatesachar and Sibaiya), 8.
Hyperfine structure of the arc lines of molybdenum and copper (Sibaiya), 321.
k-function, some properties, with non-integral index (Shastri), 768.
Lattice points in a hypersphere (Chowla), 562.
Light scattered by liquids, Doppler effect (Rao), 765.
Light scattered, molecularly, examination with a Fabry-Perot etalon, I, II (Rao), 261, 473.
Light scattering by liquid surfaces (Jagannathan), 115.
Light scattering by particles suspended in a medium of higher refractive index (Krishnan), 147.
Light scattering by thin metallic films (Swamy), 347.
Light scattering in fluids, photoelectric photometry (Ananthakrishnan), 201.
Light scattering, longitudinal, in liquids, Plotnikow effect (Krishnan), 44.
Liquids, theory, II, III (Wheeler), 105, 795.
Magnetism of tin (Rao), 123.
Metrics, homogeneous (Kosambi), 952.
m-hemipinic acid, synthesis (Meldrum and Parikh), 437.
Microseisms, theory (Banerji), 727.
Molecular clustering in binary liquid mixtures (Krishnan), 915.
Molecular clustering in fluids, optical evidence (Krishnan), 211.
Normals to a quadric in hyperspace, theory (Rangaswami), 931.
Normal vibrations of molecules having octahedral symmetry (Nath), 250.
Norm curve, rational, linear complexes related (Ramamurti), 457.
Oils, volatile, occurrence of furan derivatives (Rao and Subramanian), 189.
Paramagnetic ions, weiss constant in the s-state, I, II (Bose), 605, 754.
Phase advancer, a new type (Rudra), 98.
Phase advancer, general expedor, basic theory (Rudra), 288.
Phenylacetic acids, synthesis, from gallic acid and its methyl ethers (Meldrum and Parikh), 431.
Pianoforte hammer problem, validity of Raman-Banerjee analysis (Venkatachaliengar), 60.
Platinum isotopes and their nuclear spin (Venkatesachar and Sibaiya), 955.
Plotnikow effect or longitudinal light scattering in liquids (Krishnan), 44.
Polarisabilities, optical, principal, naphthalene molecule (Ramanadham), 425.
Polarisation field, optical, anisotropy, in liquids (Ramanadham), 281.
Positive integer, representation, as a sum of squares of primes (Chowla), 451.
Potentiometer, valve (Mehta and Jatkar), 390.
Powers, sums, I, II (Chowla), 528, 590.
Powers, sums (Chowla and Sastry), 534.
Powers, sums (Sastry), 928.

Powers, theorem on sums, with applications to the additive theory of numbers, I, II, III (Chowla), 698, 701, 930.

Primes, decompositions into squares (Gupta), 789.

Radiation, atmospheric, derivation of Ångstrom's formula, and some general considerations regarding norturnal cooling of air-layers near the ground (Ramanathan and Ramdas), 822.

Radiation, heat, from the clear atmosphere at night (Raman), 815.

Raman effect in selenic acid and some selenates (Ganesan), 156.

Raman effect, rotational, in liquids (Rao), 274.

Raman spectra of some metallic halides (Venkateswaran), 850.

Raman spectra, rotational, of gases, distribution of intensity (Bhagavantam and Rao), 419.

Raman spectrum of sulphur in the solid and liquid states (Venkateswaran), 120.

Refractivity of liquid mixtures (Narasimhiah), 34.

Rotatory power and chemical constitution, I, II (Burjorjee and others), 407, 412.

Series, some infinite (Chowla), 531.

Shells, iridescent, I, II, III (Raman), 567, 574, 859.

Shells, iridescent, X-ray analysis of the structure (Swamy), 871.

$\sum_{r=1}^{n} p_r\, dq^r$—H$dt$. (Nagabhushanam), 555.

Spectra, absorption, nitrates and nitrites in relation to their photo-dissociation (Krishnan and Guha), 242.

Spectra, absorption, some organo-metallic compounds (Asundi and others), 542.

Spectra, absorption, sulphite and sulphate ions (Karim and Samuel), 398.

Spectrum, absorption, calcium iodide (Samuel and Zaki-ud-din), 723.

Spectrum, Ag III, some multiplets (Rau), 28.

Spectrum, band, analysis, cadmium (Subbaraya), 484.

Spectrum, band, analysis, zinc (Subbaraya), 663.

Spectrum, high frequency, mercury vapour (Bhatt), 891.

Spectrum, spark, second, iodine, regularity observed (Seth), 593.

Spectrum, trebly ionised mercury (Subbaraya), 39.

Sub-soil flow from canal beds, hydrodynamical investigation by means of models (Vaidhianathan and others), 325.

Temperature discontinuity, transmission, effect of radiation (Malurkar), 454.

Ultra-violet, transparency of the atmosphere and a possible means of extending the solar spectrum in the regions 2200–2000Å (Ramanathan and Ramdas), 308.

Valency, pair bond theory (Lessheim and Samuel), 623.

Waring's type, some problems, I, II (Chowla), 694, 780.

Wave-filters, electric, voltage amplification terminated in negative resistances (Chakravarti), 224.

$x^2 - 1$, greatest prime factor (Chowla), 269.

$x^2 + 1$, greatest prime factor (Chowla), 271.
